Error with the name: This file already exixts in output folder (\z_PDFmaker!!) !!

possible fixes:
1. Move out all files from 'z_PDFmaker!!' folder and restart PDFmaker.exe .
2. Re-enter the name or over write this file.

Do u want to over-write existing file ? (type yes/no to rename & press enter) :no

Please enter name u want to give to your pdf, and press enter! : sample>>

Error with name: none of these special characters allowed
 ? / \ | < > : " *
please re-enter the name
